U. S. DOMESTIC AIR PARCEL POST

In Domestic Air Parcel Post the U.S. Post Office offers the air shipper a fast, dependable economical means of expediting small packages anywhere within the United States or to its territories and possessions. Generally speaking parcels up to 2 lbs. are forwarded cheaper by Air Parcel Post due to minimum rates applicable to both Air Freight and Air Express.

Handling.—Parcels on which postage is prepaid at the rates shown are entitled to the most expeditious handling, transportation (by surface or air), and delivery practicable, but not special delivery. For maximum speed the special delivery service should be utilized for all matter sent by air. This is especially important if the mail is to reach the office of address on a week end or holiday.

Conditions.—The zone rates prescribed for parcels carried by air (including other transportation to and from air-mail routes) shall apply to mailable matter of any class, except that which may be damaged by low temperatures or high altitudes, weighing over 8 ounces but not more than 70 pounds nor exceeding 100 inches in length and girth combined, including written and other matter of the first class, whether sealed or unsealed.

Rates.—The rate of 7 cents an ounce or fraction of an ounce will apply to all domestic air mail weighing up to and including 8 ounces, regardless of distance or zone; the zone rates will apply to such mailing weighing over 8 ounces, fractions of a pound being charged as a full pound.

The zone rates for parcels carried by air are based on the eight postal zones applicable to fourth-class (parcel post mail) and are shown in the following table:

AIR PARCEL-POST ZONE RATES

Zone	First pound over 8 ounces	Additional pounds
	Cents	Cents
1, 2, and 3	60	48
4	65	50
5	70	56
6	75	64
7	75	72
8	80	80

Exception.—Parcels weighing less than 10 pounds but exceeding 84 inches in length and girth shall be subject to the 10-pound rate for the zone to which addressed.

Army post offices and Fleet post offices, (weight limit 70 pounds; size limit—30 inches in length and girth combined).—The rate of 80 cents for first pound (over 8 ounces to 1 pound) and 80 cents for each additional pound or fraction thereof shall be charged on parcels transported by air between United States or its Territories and possessions and overseas Army-Air Force and Navy post offices, also naval vessels addressed in care of Fleet post offices, at New York, N. Y., and San Francisco, Calif.

Marking.—All parcels sent via air parcel post should be prominently endorsed "AIR PARCEL POST" or "VIA AIR MAIL," not only on the address side but on each end and side. When available, printed labels bearing these words should be affixed to parcels. All parcels must bear the name and address of the sender.

Forwarding or Return.—Air parcel post matter which is undeliverable at the office of address shall be promptly forwarded by air if a new address is available unless the matter bears instructions of the sender to forward by surface mail. If a new address is not available, air parcels shall be promptly returned to the sender by surface means unless the piece bears specific instructions that it be returned by air. This action shall be taken whether or not the matter bears a pledge of the sender to pay forwarding or return postage.

In case the matter is forwarded by air, postage for forwarding shall be computed at the proper air parcel post zone rate. When air parcels are forwarded to addressee or returned to sender by surface means the "Air Parcel Post" endorsements shall be crossed off and the piece rated for collection of the proper rate of postage according to the class of matter involved.

Postmasters will exercise discretion in the treatment of air parcel post under this procedure when individual cases indicate the desirability of special consideration in its application. For example, where it is apparent that forwarding a parcel by air would not advance its delivery, the parcel may be forwarded by surface means. Every effort should be made to bring to the attention of air parcel post mailers the importance of placing specific instructions in conjunction with their return cards regarding the forwarding or return of such articles which cannot be delivered as addressed.

Domestic, registered, insured, and c.o.d.—Domestic registered, insured, and c.o.d. mail may be sent by air parcel

post upon payment of the prescribed fees, which are in addition to the air zone postage, and surcharges when required on registered mail. All domestic registered mail sent by air parcel post must be securely sealed and postage must be prepaid thereon at the zone rates.

First-class matter sent c.o.d. by air parcel post must also be sealed and be prepaid at the zone rates. Indemnity for insured mail sent at the air zone rates will be payable only for fourth-class matter. All domestic registered, insured, and c.o.d. mail prepaid at the air parcel post rates will be accepted with the understanding that the senders guarantee any return or forwarding postage which may be necessary.

AIR EXPRESS

Air Express is handled by the Air Express Division of Railway Express Agency, Inc., and is forwarded on the passenger and cargo planes of the certificated airlines of the U. S.

A feature of this service is the prompt pick-up directly from shippers and delivery to consignees—at no additional charge—in all cities and principal towns within the regular Railway Express Agency limits.

Air Express shipments are flown direct between more than 1,800 cities in metropolitan areas served by airports, and moved by coordinated air and rail express service between 22,000 other communities. The U. S. and Canadian City Directory, part 1, pages G3-16, lists alphabetically

every airport city served by Air Express and also indicates availability of transfer facilities to Rail Express and whether such facilities are available in the city, at the airport, or both. This information is especially useful for shippers making combination air/surface express shipments.

Air Express will be delivered on customer's demand, regardless of the time of day. Rates are also most suited to small shipments due to the minimum charges applicable to Air Freight. Generally the rate break between Air Express and Air Freight falls between 25 and 35 pounds.

The following table illustrates typical charges which might apply to Air Express shipments:

Lowest rate will be \$3.50.

AIR FREIGHT

Every flight of almost all the scheduled airlines carries Air Freight, and exclusive, specially equipped, all-cargo planes now operate between most major cities. Air Freight serves some 800 cities directly (see U. S. and Canadian City Directory, part 1, pages G3-16); pick-up and delivery provides service to more than 2,000 additional points in the U. S.; either direct or connecting truck service is available to points beyond; and through connections are made with flights to all overseas points. A single Airbill covers the entire movement.

Packing

Air Freight packing requirements usually are simpler than those of surface carriers. Generally speaking, while in flight, shipments are not subjected to the steady bumping and horizontal swaying or the jarring caused by sudden starting and stopping of surface carriers. Damage from load shifting in an airplane is the exception rather than the rule. Therefore, less crating or the use of lighter material will suffice in many instances.

However, it should be kept in mind that in loading and unloading, shipments are moved by lift forks, conveyors and frequently by hand; also where pickup and delivery service is utilized, shipments should be sufficiently packed

to withstand ordinary wear and tear consistent with normal handling.

Shippers should be aware of the dimensional problem of aircraft to the end that air freight is packed with the minimum of width, height and depth. For further information regarding size refer to the U. S. and Canadian City Directory and Aircraft Dimension Charts.

C.O.D. (Collect On Delivery)

It is the sole responsibility of the shipper to enter the amount of the C.O.D. on the Airbill (the C.O.D. amount is deemed to be the declared value of the shipment unless a higher or lower value is declared) and the carrier shall not be liable for failure to collect the C.O.D. amount when it is not so entered by the shipper. The shipper must also have the letters "C.O.D.", and the total amount to be collected on delivery, legibly and durably marked on each piece of C.O.D. shipments.

C.O.D. pieces will not be accepted on the same Airbill with pieces not moving C.O.D.; only pieces covered by one C.O.D. amount will be accepted on one Airbill. Credit will not be extended on the amount of C.O.D., no privilege of examination, no partial collection, no partial delivery will be made unless full amount has been collected.

For collecting and remitting the amount of the C.O.D. the following service charges will apply:

When the amount collected is:	Charge for collecting and remitting C.O.D. will be:
\$1,999.99 and less.....	\$0.50 per \$100.00 or fraction thereof. \$1.00 minimum charge.
\$2,000.00 thru \$4,999.99....	\$10.00 for first \$2,000.00 plus \$0.40 per \$100.00 or fraction thereof over \$2,000.00.
\$5,000.00 and over.....	\$22.00 for first \$5,000.00 plus \$0.30 per \$100.00 or fraction thereof in excess of \$5,000.00.

Limit of \$50,000.00 per shipment.

Valuation Charges

Any shipment shall be deemed to have a declared value of \$0.50 per pound (but not less than \$50.00) unless a higher value is declared on the Airbill at the time of receipt of the shipment from the shipper. An additional charge of \$0.10 shall be required for each \$100.00 (or fraction thereof) by which the value declared on the Airbill at the time of receipt of the shipment from the shipper, exceeds \$0.50 per pound or \$50.00 (whichever is higher). Weight used to determine valuation charges is the same as that used to figure transportation charges.

Charges for Dimensional Weight

Transportation charges of international airlines, including ground services, are assessed on either the actual weight or the cubic dimensional weight of a shipment, whichever is greater. The cubic measurement will be based on the greatest dimensions (Length X Width X Depth) of (1) the shipment, or (2) of each part in the event of mixed shipments containing differently rated parts.

Cubic dimensional weight will be derived from the cubic measurement of shipments or parts as provided above on the basis of one pound for each 250 cubic inches or fractions. An exception for U.S. domestic shipments is Cut Flowers or Nursery Stock which will be charged on the basis of 266 cubic inches per pound.

Where weights are measured in kilograms, 9,000 cubic centimeters (550 cubic inches) will equal one kilo, except for shipments moving only between points in Europe, 7,000 cubic centimeters will equal one kilo.

General Commodity Rates

See tariff section on pages 5-12.

Specific Commodity Rates

The scheduled air carriers have provided special low rates with reductions of as much as 40% for volume shippers of a wide range of products between most major traffic centers. This subject is so extensive and involved that we can only touch upon it in this guide. There are different commodity groups between each pair of cities, they vary according to carrier, and the shipper will also find a variance of rates as between carrier.

We suggest that you use the U. S. City Directory or your Official Airline Guide to determine what carrier or carriers provides the service and then contact the various carriers for information concerning Specific Commodity Rates. If you are a volume shipper of various commodities you can check rates yourself.

Among the most widely shipped Specific Commodities are such items as: Advertising matter, Apparel (wearing), Automotive parts, Cut flowers, Drugs, Electrical equipment and appliances, Foodstuffs, Machine parts, Printed matter, Textiles, etc.

Pick-up and Delivery

Pick-up and/or delivery service, during normal business hours, is available at every major city. With few exceptions, charges for this service average about 55c per 100 pounds with a minimum charge of \$1.30 per shipment. The U. S. City Directory, part 1, pages G3-16 indicates whether pick-up and delivery service is available, and the basic pick-up and delivery charges for each carrier in each city. It should be kept in mind that special rates apply to pick-up and delivery service on week-ends, holidays and for trips outside local limits.

Deferred Airfreight

Deferred Air Freight is now offered by American, Braniff, Continental, Flying Tigers, Riddle, and TWA between major cities such as New York, Philadelphia, Washington, Chicago, Los Angeles, Miami, and Oakland/San Francisco. It combines the advantages of airfreight (lower packaging costs—lower refurbishing costs—almost complete freedom from loss and pilferage resulting in lower insurance rates—simple method of arranging shipments—lower handling costs) plus deliveries generally equal to or better than surface transportation and at a cost generally equal to or better than surface transportation. Delivery is made on third or fourth day depending upon length of haul.

Sample rates: New York—Los Angeles (100 lbs. min.) \$15.95, (2000 lbs.) \$14.20; eastbound \$13.50 and \$12.00. Chicago—Los Angeles (100 lbs. min.) \$11.35, (2000 lbs.) \$10.45; eastbound \$9.60 and \$8.85.

Tariffs

All rates and charges for U.S. carriers are in tariffs officially filed with the Civil Aeronautics Board. Most rates and charges are contained in tariffs filed for the U.S. airlines by B. H. Smith, Agent, Air Traffic Conference of America, 1000 Connecticut Ave., N.W., Washington 5, D. C., as follows: Official Air Freight Rules Tariff No. 1-A; Official Air Freight Rates Tariff No. 2; Official Air Freight Pick-up and Delivery Tariff No. 3-C; Official Air Freight Specific Commodity Tariff No. 5-B; Official Air Freight Specific Commodity Tariff No. 7-A; and Official Restricted Articles Tariff No. 6-C.

VALUATION CHARGES

INTERNATIONAL (IATA MEMBERS)

A valuation charge system is in force with respect to international carriage of all types of air cargo by IATA carriers. The charge is a transportation charge and not an insurance premium. The shipper must make a declaration of value for carriage on each shipment. As a general rule shippers declare the value for carriage the customs or actual value plus all shipping charges, however the declared value for carriage may be any amount. The term "No Declared Value" (N.V.D.) also constitutes a proper declaration.* The declared value for carriage or "N.V.D." must appear in the appropriate space on the Air Waybill and under no circumstances can this space be left blank. Shipments valued for carriage at more than \$7.48 per pound will be assessed a charge at the applicable rate per \$100.00 of such declared value. (Some international shipments within certain zones will not be assessed valuation charges.)

To determine if valuation charge will be assessed locate the weight of the shipment on the chart below and if the declared value of the shipment is more than the value listed for that weight, charges will be assessed.

*TACA International: The shipper must declare the actual value as the value for carriage and in no case shall this amount be less than the value declared for customs.

When the shipper's declared value for carriage is \$16.50 per kilo (\$7.48 per pound) or less no valuation charges will be assessed and transportation charges will be determined solely on the weight or volume of the shipment.

When the shipper's declared value for carriage exceeds \$16.50 per kilo (\$7.48 per pound) charges for transportation will be determined on a weight or volume basis PLUS the valuation charge based on the shippers declared value for carriage according to the table below.

When the general cargo under 100 lb. (45 kilo) rate is:			The valuation charge

(The chart above does not include assessments for valuable cargo nor exceptions for some carriers for livestock and perishables nor interline joint valuation rates.)

If transportation is performed by IATA members valuation will be assessed based on the table above. If transportation is performed jointly by IATA and non-IATA members the valuation charge for the non-IATA member will be based on their published fares and the IATA and non-IATA charges will be shown separately on the Air Waybill.

INSURANCE

INTERNATIONAL AIR CARGO

For the convenience of international shippers desiring the facility most carriers make available all-risk insurance under Air Waybills issued by them. A carrier can insure air cargo from origin to final destination whether or not the shipment is transported wholly by that carrier so long as that carrier's Air Waybill is issued. Whenever one carrier's Air Waybill is issued to cover transportation via another carrier the insurance issued will be the insurance offered by the carrier whose Air Waybill was issued. Shippers may obtain this insurance upon specific request and only at the time of shipment. The request for insurance must be indicated in the appropriate space on the Air Waybill or in the Shipper's Letter of Instructions. The Air Waybill or the Shipper's Letter of Instructions must be signed by the shipper or his authorized agent.

The shippers declared value for insurance is not required to be related in any way to the shippers declared value for carriage. The amount of the insurance applicable is the amount set forth on the face of the Air Waybill as the value specified for insurance.

Because the basis for assessing premiums and rates vary with carriers a complete table of premiums cannot be

given here, however, in general the following is indicative of some of the features of the insurance available to shippers:

Premiums vary from \$.05 to .35 per \$100 based either on a country to country or a mileage or zone basis for general or valuable cargo.

Valuable cargo includes gold and silver bullion, coin and dust, uncoined gold and silver, platinum or other precious metals, precious stones, industrial diamonds, currency of any nation, stocks, bonds, or any form of negotiable paper.

The insurance does not usually cover shipments of live animals and perishables or if covered, only against risk of death or loss or damage by fire, theft, lightning or crash or collision.*

The insurance premium is not a charge levied by the carrier and in collecting the premium for payment to the insurance company, the carrier acts as an agent for the shipper.

The insurance premiums when compared with other forms of transportation insurance are extremely low and warrant the attention of all shippers to the availability of the insurance.

*SABENA: Live mammals (excluding monkeys, apes, and live fish) can be insured covering all risks of death, mortality, damage or injury from any cause whatsoever. Live-stock other than mammals (including monkeys, apes and live fish)—coverage limited to 75% of the insured value.

CONVERSION TABLES

KILOGRAM RATE TO POUND RATE

To convert the rate per kilo to the rate per pound:

Locate in the column to the far left the rate per kilo not including the last digit of the rate.

Locate the last digit of the rate per kilo in the horizontal column at the top of the table.

The converted rate per pound is indicated where the two columns intersect.

EXAMPLE:

The rate is \$3.11 per kilo. Locate \$3.10 in column at left and read across.

Locate the last digit (1) in the horizontal column at top of table and read down. Rate per pound is \$1.41.

a. Consular Invoice*, 5 copies, visaed, is also required with all shipments not exempted above (under Argentina). To obtain visa, Consular Invoice* must show Import Permit or Circular item number information required on Commercial Invoice.

*Or: "International Air Cargo Invoice", in areas where this form is available and is required by applicable Consular (who is to visa same), instead of Consular Invoice.

Air Waybills and U.S. Export Declarations must show passenger's departure port, date and carrier. Baggage not shown on passenger's Argentine Baggage Declaration is subject to confiscation on arrival in Argentina.

2. The International Air Cargo Invoice (see illustration), unless consigned to Foreign Gov't offices, must state:

"Declaro bajo juramento de que toda la informacion puesta en esta factura es verdadera y exacta y que los precios son aquellos que han sido pagados o por pagarse. Igualmente declaro que no se ha hecho arreglo alguno que permite la modificacion de estos precios."

3. Although required at destination, the special Australian Certified Invoice (Customs Invoice, certified) need not accompany the shipment.

Packing List—must accompany shipment.

4. Consular Invoice, visaed by Portuguese Consul, for shipments valued over \$24.75. If value is less than \$24.75, only the Commercial Invoice is required. If no Portuguese Consul at origin, Commercial Invoice must be certified by local Chamber of Commerce or other civic body, and contain statement: "I hereby certify that the above-described articles are the growth, produce, or manufacture of (country of origin) and that this invoice is true and correct in all particulars."

All goods arriving in Portugal are subject to an "Airport Tax" according to the following scale:

Goods with a freight rate of up to ESP 25.—per kilos ESP 1.00	
from ESP 25.—	50.—
" " 50.—	100.—
" " 100.—	200.—
" " 200.—	300.—
Goods with a freight rate exceeding 300.—	4.00

This tax is paid by the consignee. A further 2% import tax on all charges payable in Portugal, is levied. Theoretically, goods can be reforwarded in bond to all places in Portugal having Customs houses. As a Customs Officer must very often accompany the goods and tremendous charges are always incurred, practically all goods are cleared in Lisbon and forwarded to the consignee with all charges arising in Portugal to be collected from him. Customs clearances must be effected within sixty (60) days from the day of arrival. After this time the goods may be sold by the Customs Authorities.

5. Must include complete, accurate, detailed description of each package, its weight, contents, and itemized C.I.F. value. Must contain following statement signed by shipper: "PROTESTAMOS QUE LOS PORMENORES DE CANTIDAD, PESOS, CALIDADES, Y VALORES DE LAS MERCADERIAS EN ESTA FACTURA SON VERDADEROS Y CORRECTOS." Must be visaed.

6. Certification as to origin may be inserted in the Commercial Invoice by a declaration by the shipper, certified by a recognised Chamber of Commerce.

a. Consular Invoice, visaed, is generally also required for shipments (by any means of transportation) valued over \$23.50, originating at points having a Bolivian Consul. Itemized C.I.F. value must be shown.

NOTE: Commercial and Consular Invoices submitted for visa, must be accompanied by Import Permit in duplicate submitted by the consignee. Consul will retain duplicate (photostatic copy not acceptable).

However, considering urgent nature of air shipments, Bolivia Customs permits Air Cargo entry without Consular Invoice, provided: Commercial Invoice is (1) certified by Chamber of Commerce and visaed by Consul; or (2) certified by local Chamber of Commerce that value declared on invoice is true and correct, and that there is no Consul at point of origin. In this case (2), Consignee will be subject to \$50.00 fee.

Samples and Advertising or Promotional Matter: Consular Invoices and Consular visa on Commercial Invoices are not required (1) with such shipments of "No Commercial Value" (must appear on Invoices), or (2) with Samples to registered business consignees and having commercial value of \$25.00 U.F. cy. F.O.B., OR LESS (which shipments will be subject to duties and taxes).

Bolivian Rules on Value: Shippers are cautioned not to under-value their goods on Bolivian consular invoices. The new tariff contains severe penalties for undervaluation, making it possible for the customs to confiscate the goods.

7. Two copies are required for the Islands of Antigua, Barbados, Grenada, St. Kitts, St. Lucia, and Tobago. See separate listings for Bahamas, Bermuda, and Jamaica.

a. Unless shipment, regardless of contents, is also accompanied by consignee's Import License or the number of same as shown on the Invoice, the latter must contain Shipper's signed statement guaranteeing to pay return charges in event shipment is denied at Antigua.

8. Combined with Consular Invoice; must be certified by local Chamber of Commerce.

9. Import License not required for shipments consigned to foreign government offices and unaccompanied baggage.

10. Except for shipments to government offices, Air Waybills must be visaed by carrier at gateway. Fees range from \$1 to \$3, based on Declared Value for Customs.

11. Must contain: (a) Total number and kind of packages, (b) "aerial number" of each package, with quantity and description of contents as in Brazil Customs Tariff, unit net weight in kilos, unit price* of each item, (c) total net weight, legal weight, and gross weight in kilos, and total value, (d) country of origin of all merchandise in the shipment, (e) Import License (or "Pedido de Cambio") number and issue date, (f) signature of shipper.

*If charges collect, Values and Sales prices must be followed by: Import License No., F.O.B. (point of origin)

Air Waybill: Four (4) copies are required for Consular visa* and Customs purposes, and for this "Copy 5—Customs Declaration" and two additional WHITE copies, must be used. (Red "Original 2—for Consignee" must never be used for visa purposes as it is required by consignee to effect clearance, and must accompany shipment to destination for this purpose only).

*Exception: Visa not required for Diplomatic Pouches.

OTHER REQUIREMENTS, EXCEPTIONS AND REMARKS

NOTE: Brazil regulations make imperative the careful and complete preparation of Air Waybills to contain all information. Failure to comply will cause Consul to refuse Air Waybill visa, or subject shipment, consignee or carrier to serious fine. Shipment must not be forwarded from origin under carriers' or other through Air Waybill unless or until:

(a) shipper or his agent has included all of listed information on Invoices; and (b) all has been carefully entered on Air Waybill. Country of Origin must be WRITTEN OUT IN FULL, or clearance will be subject to indefinite delay.

Carriers' Manifests: Separate cargo manifests must be prepared for each Brazil Customs Destination. With standard ICAO Manifests, consignee's name must be entered in "owner/operator" column. One copy of visad Air Waybill, and also 4 additional consular stamped copies of this Manifest must be presented to Customs on arrival at first Brazil port. Consuls usually require 2 extra copies of the Manifest for their use and disposition along with the 2 additional white copies of Air Waybill retained by them.

Visas: Originating Carriers (except for shipments originating in continental U.S.) must submit above described documents to Consul at point of origin of air carriage and obtain required visas and stamping to specified copies, which are to be forwarded to Brazil by same aircraft carrying the covered shipments. When there is no Consul or other Brazilian visa authority located at point of origin, above extra Manifests and Air Waybills must be marked "No Consular Service Available" and forwarded along with the shipment.

Exception: Consular Visa is NOT REQUIRED on Air Waybills which covers DIPLOMATIC POUCHES only, nor on separate covering Manifests.

Labels: Each package of every Brazil shipment must bear "Identification and Lot Label" (9253-3105), which will be prepared and affixed by certain designated carriers' stations.

12. Canadian Customs Invoice (prepare 3): Original and one exact copy to be airmailed by shipper direct to consignee; one copy to accompany shipment. (For USA shippers there are two forms of Invoice: 1. Form M-A for goods sold prior to shipment; 2. Form N-A, notarized, for goods shipped without prior sale).

EXCEPTION: Imports of merchandise for sale valued at less than \$25.00 may be admitted without being invoiced on official Canadian Government Forms, provided the shipper's own commercial invoice is presented to customs by the consignee. Non-commercial shipments may be admitted without official invoices if valued at less than \$50.00, or at less than \$100.00 if entered at ports where examiners can determine accurately the value of the goods.

13. Must contain following signed statement in English or Spanish: "Under oath we declare we are owners (or shippers) of above merchandise, that prices and other details are exact, that said merchandise is product of soil or industry of (origin country), and we accept consequence which might arise through any inexactitude contained herein." Invoices and Airway bills for shipments valued at \$15.01 to \$100.00 must also state: "Consignee holds covering Import License No.", or, except when charges collect, "Shipper declares contents Forms, from Import License requirement." If shipment is over \$100.00 value, Invoices must be visad; or, if no Consul at point of origin, accompanied by a Chilean Certificate of Authority to Import, blue copy, in lieu of visa. (For Partial Shipment a photostat of same required).

a. ARICA SHIPMENTS—VISA TO AIR WAYBILL: For all shipments, regardless of contents, consigned to ARICA (only) and originating at a point where Consul of Chile is available; air carrier's office or agent receiving shipment must (1) hold same, and (2) give or return to Shipper or his authorized agent or representative the Consignee's Copy plus an Extra Copy of completed Air Waybill, along with other documents which accompany shipment. (3) Shipper or authorized representative must then secure Consular Visa to "Consignee's Copy" and return it with other documents (Consul will keep "Extra Copy" so that shipment can then go forward.)

14. Due to the complexity of Colombian documentary requirements, consignees should be directed to the nearest Consulate for the specific Licenses, Consular Invoices, visas, and Certificates required for the goods being shipped.

15. After the Air Waybill is completed: (1) Enter in the "Nature and Quantity of Goods" section: "SHIPPER AIRMAILING OTHER DOCUMENTS TO CONSIGNEE." (2) Remove Air Waybill copies "No. 3—Original—For The Shipper," "No. 2—Original—For The Consignee," and "No. 6—For The Third Carrier." (3) Give or send these copies to the shipper, with the following instructions: "If any part of this shipment is subject to Consular Invoice, the three Air Waybills attached must be submitted to the Colombian Consul who will visa them. When returned to you by the Consul, all three copies plus any other documents not sent with the shipment, must be airmailed direct to the consignee. If Consular Invoice is not required for this shipment, the un-visad Consignee's copy of the Air Waybill, plus any other documents not accompanying the shipment must be airmailed direct to the consignee."

a. Commercial Invoice in quadruplicate is required for EVERY SHIPMENT (regardless of contents) and showing:

(a) Number & Date of Import License, if any (see 15b, below, and Exceptions in 15b.)

(b) Clear Description of Contents (for Silk Articles describe nature of Silk, such as "Animal (real) Silk" or "Artificial Silk," and which description must also appear on the Air Waybill).

(c) Exact Gross Weight of shipment, in kilos and grams.

(d) Statement, in Spanish: "Certificamos bajo juramento que los precios de esta factura son F.O.B., y son los mismos que ofrecemos al cliente y que la mercancía a que se refiere esta misma factura es originaria de (name Country of Origin) en fe de lo expuesto firmamos la presente declaración en (City & State), de (date)," followed by Shipper's Authorized Signature, with name and title of signing employee.

b. Consular Invoice, 5 copies, visad, and Import License, unless exempted in Exceptions are also required for ANY shipment

valued at \$20.00 U.S. cy. F.O.B., or more. Consular Invoice when submitted to Consul for visa must be accompanied by Import License; and also by the Consignee's Copy of the Air Waybill and an Extra Copy of same which are to be visad at the same time as the Consular Invoice. On their return, Shipper must at once airmail all to his consignee.

(When there is no Colombia Consul at point of origin, in exceptional cases visas may be obtained from Consul of a friendly nation if one is available at that point).

Consular Invoice must include statement: "Certificamos bajo juramento que los precios en esta factura son F.O.B. en el puerto de embarque."

General Descriptions, Customs Paragraph Number, Weights and Amounts appearing on the Consular Invoice must agree with those on the Import License. Details must be clearly typed, without erasures or changes.

"Partial Shipments" against Import License for goods valued as in above: Along with other required documents, the Import License must first be presented to Consul for annotation and return to shipper.

Exceptions (to Consular Invoice or Import License requirement):

(a) Samples of No Commercial Value: Consular Invoice is not required. Import License is not required if such samples have been previously mutilated.

(b) Baggage of Passengers consisting of Personal Effects: Consular Invoice and Import License are not required.

(c) Books, Magazines & Newspapers for personal use, not for resale, and/or under subscription: Consular Invoice and Import License are not required.

(d) Shipments to Foreign Government Diplomatic Missions for their exclusive use: Import License is not required.

c. (Certificate of Origin (form) no longer required, except when specified by Consignee or Letter of Credit.)

16. With shipments from other points Commercial Invoices must be certified by Consul or friendly government or by Notary Public, requiring payment of Consular fee equivalent by the consignee on arrival of shipment. *Such shipments are acceptable without Consular Invoice provided Air Waybill indicates this Invoice is being sent direct to Consignee by Airmail. Shipment will then be (1) held at Port au Prince Customs pending presentation by consignee, or (2) released to consignee against his guarantee deposit.
25. Special (Israel) Form of Commercial Invoice, in duplicate, signed by shipper.
26. Commercial Invoice must bear signature (in ink) of shipper or his agent.

28. Commercial Invoice in triplicate, prepared in Spanish and signed by Shipper, is required with all shipments regardless of value. With shipments valued at \$100.00 U.S. cy. F.O.B. or more, this invoice must be visaed by Consul (see NOTE below) to whom must be presented 9 copies, and also Consular copy of consignee's Import Registered Order. For consignments valued in excess of US\$ 50.00 and not consisting of goods of personal nature or for personal use, (to be indicated clearly in the Commercial Invoice) a Consular Invoice visaed at a Consulate of Panama is required. If no Consulate is located at place of departure, the goods may be forwarded without Consular Invoice, but in this case the necessary invoices must be notarized and countersigned by two (2) reliable local business firms. For most articles an Import License is required.
30. If value is \$100.00 or more, must be visaed. If no Consul at origin, may be certified by Chamber of Commerce. Customs impose fine of 25% of value unless Invoice is presented at time of clearance.

Sample shipments, to avoid Licensing requirements, must be in "reasonable" quantities of commercial value, and the Invoice must contain the following statement, signed by the shipper: "It is hereby certified that the goods enumerated in this Invoice are supplied as samples free of charge to the consignee, and that no payment in any form has been or will be made for such goods at any time; moreover, the value of these goods has not been, or will not be, debited to a 'commission account' or any other account in our books, which is operated in the consignee's name or to his advantage."

All shipments must be strongly packed and each package must be sealed. The packages must be legibly and durably marked with names and addresses of both the shipper and the consignee. The marking should be made in Latin and preferably also in Russian characters. The weight of the shipment must be exactly stated in the Air Waybill as the weight of each shipment will be controlled on the transfer to AEROFLOT. (a) Shipments to the U.S. Legation or Embassy.
(b) Baggage consisting of personal effects. (Do not accept Unaccompanied Baggage as Air Freight unless the shipper declares both the Value for Customs and the Value for Carriage as "No Commercial Value.") Insurance, if any, required by passenger (or shipper), must be secured by him from outside source (not under the Air Waybill). Failure to adhere to this requirement will subject the shipment to Exchange Control restrictions and possible Customs duties.
(c) Shipments consigned to the Armed or Police Forces of Uruguay.
(d) Public documents, bills, stamps, and official papers (when acceptable as Air Cargo).
41. Shipments not requiring or covered by a Consular Invoice, valued less than \$52.00 and regardless of contents, must have a Certificate of Origin legalized by a Uruguayan Consul either at origin or at another point.

Corrections or additions may not be made unless an explanation of each change is given at the bottom of the form and signed by the shipper on all copies. (For sample of Planilla Aerea, See illustration.)
Certificate of origin, required for: Alcohol, lard, margarine, meats, milk and milk products, vegetables from all countries, mineral waters, combs, and substances for hair dying from France. THE AIR WAYBILL

An international shipper must make out (cut) or have made out on his behalf, an Air Waybill (Consignment Note) which serves as a contract of carriage and as receipt for goods in international air transportation. International shipments tendered to a carrier on a domestic airbill by the shipper, his agent or another carrier can be refused unless accompanied by specific written instructions (Shipper's Letter of Instructions) prepared by the shipper authorizing the carrier to issue and sign the Air Waybill. These instructions must include:

- the Shipper's declared value for Carriage,
- the Shipper's declared value for Customs,
- whether or not the shipper desires insurance and if so the amount of insurance to be purchased.

This information is necessary for the completion of the Air Waybill. Air Waybills are executed (cut) in sets of at least nine copies, each in the following order and colors, and are marked and used for the following purposes;

- ORIGINAL 3—FOR THE SHIPPER (Blue). Shipper's receipt and evidence of carriage contract.
- ORIGINAL 1—FOR ISSUING CARRIER (Green). For issuing carrier's accounting purposes and evidence of carriage contract.
- ORIGINAL 2—FOR CONSIGNEE (Pink). Accompanies shipment to destination and is tendered to consignee.
- NUMBER 4—DELIVERY RECEIPT (Yellow). Accompanies shipment to destination, is signed by Consignee and retained by final carrier as delivery receipt and evidence of completion of carriage contract.
- NUMBER 5—CUSTOMS DECLARATION (White). Accompanies shipment to airport destination for use in effecting clearance through customs.
- NUMBER 6, 7, 8 (White). 6. Accompanies shipment and is retained by Third Carrier.
- 7. Accompanies shipment and is retained by Second Carrier.
- 8. Accompanies shipment and is retained by First Carrier.
- NUMBER 9—FOR SALES AGENT (White). Retained by agent or office of issuing carrier. Whenever special regulations or circumstances require additional copies of the Air Waybill, unnumbered, single-sheet, extra copies must be prepared separately.

An Air Waybill is said to be *issued* when;

- (i) It is signed by shipper or on his behalf;
- (ii) It is signed by the air carrier or on behalf of the air carrier.

Note: Only the Air Waybill of the carrier to whom the shipper hands his consignment for air carriage should be used.

Words and figures must be typed in clear Latin characters and Arabic numerals. Either the English, French, German or Spanish language *must* be used.

DIAGRAMMATIC INSTRUCTIONS FOR USE OF AIR WAYBILL (Cont'd)

Insert in the appropriate currency the value declared for customs purposes as specified by the shipper. If space is required as support to the Air Waybill, the declared value for customs should be the same.

Insert in the appropriate currency the value declared for carriage by the shipper. When a declaration of an acceptable declaration, this must be entered, but may be abbreviated "NVD". The words "no value" is not an acceptable declaration. This value is the amount on which the carrier's valuation charges, if any, will be computed.

Insert chargeable weight. If a unit of weight which differs from that stated in the "Gross weight" box is used, it must be specified.
The actual weight or volume weight, whichever is higher (rounded up to the next higher half kilogram or full pound); provided that where a lower rate for a higher minimum weight applies, the latter weight shall be entered except that where minimum charges apply, no insertion need be made.

Insert the following abbreviations as may be appropriate:
M = Minimum Charge
4 digit spec. Commodity Rate
No. = Specific Commodity Rate
R (followed if desired by Class Ident. No.) = Class rate (less than normal rate)
S (followed if desired by Class Ident. No.) = Class rate (more than normal rate)

RESTRICTED ARTICLES

Certain types of cargo are subject to restrictions in order for the carriage to be performed by air. To secure uniformity of the special conditions which attach to "restricted articles," the International Air Transport Association has developed the *IATA Regulations Relating To The Carriage Of Restricted Articles By Air*. These regulations are also published in tariff form by the Air Traffic Conference of America in its Official Air Transport Restricted Articles Tariff No. 6-C.

These regulations list and define restricted articles, noting which may or may not be carried, the quantity allowed, and the packaging requirements. The list includes such things as flammables (either liquid, solid, or gaseous), corrosives, poisons, radioactive substances, magnetic material, noxious or irritating substances, or articles possessing inherent qualities which make them unsuitable for carriage by air without special provisions.

Items of this nature will be accepted by IATA carriers only in conformity with the IATA Regulations or the Restricted Articles Tariff No. 6-C. When such an item is offered to an air carrier, the proper shipping names, as listed in the Regulations, must be used. Trade names are not acceptable.

Some restricted articles may be accepted for carriage on cargo-only planes. Other articles may travel on cargo aircraft in large quantities or with a different type of packaging than is permitted on passenger-carrying airplanes. For such items, the Aircraft Differentiating Label (below) must be affixed by the originating carrier when the shipment involves an inter-line movement. The airwaybill and other shipping documents should indicate when shipments are acceptable on cargo aircraft only.

Restricted articles which are offered to an air carrier in accordance with the regulations must be

Name of Label: CARGO AIRCRAFT ONLY LABEL

Descriptions: Orange with black printing. Dimensions shall not be less than 4½ inches by 2½ inches.

properly labeled. Standard labels for restricted articles (following) have also been approved by IATA.

Carriers will not accept restricted articles listed in the IATA Regulations or the Restricted Articles Tariff No. 6-C as acceptable for carriage by air unless the shipper or his authorized agent has certified that the shipment complies with the Regulations.

To meet this requirement, the Shipper's Certification shall incorporate the following wording which may be in the following form, or which may be incorporated in such other document as the carrier deems appropriate.

SHIPPER'S CERTIFICATION FOR RESTRICTED ARTICLES (to be completed in duplicate)*		
This is to certify that the contents of this consignment are properly described by name and are packed, marked and labelled and are in proper condition for carriage by air according to the IATA Restricted Articles Regulations and to all applicable carrier and governmental regulations. This consignment is within the limitations prescribed for passenger/cargo (cross out one) carrying aircraft.		
Marks and Numbers of Package(s) (optional)	Specify each article separately (trade names not permitted) (optional)	Net quantity per package (optional)
<div style="display: flex; justify-content: space-between;"> <div style="width: 60%;"> Name and address of shipper or his authorized agent Signature </div> <div style="width: 35%;"> Date </div> </div>		

*Note - One signed copy shall accompany the shipment and the other signed copy shall be retained by the originating carrier.

The carrier may also require the shipper to have the statement certified by an authority approved by the carrier. Where the shipper states the article does not

fall within the scope of these regulations, the carrier may, in the case of doubt on its part, require the shipper to so certify.

STANDARD LABELS FOR RESTRICTED ARTICLES

Shippers of articles which could possibly be classified as Restricted articles should consult the air carrier concerned in order to obtain exact information as to the acceptability and the regulations governing the transportation by air.

CARRIERS TERMS FOR ACCEPTANCE OF LIVE ANIMALS AND UNUSUAL SHIPMENTS

This section contains the individual carrier's conditions for the acceptance of live animals, human remains, perishables and other unusual shipments. No hard and fast definition of unusual shipments holds for all carriers. Generally, such shipments are of a shape, size or weight as to prevent being loaded aboard the most commonly used aircraft in a normal fashion; or the nature of the shipment is such as to require special precautions to protect the aircraft, the personnel handling the shipment, other shipments or the shipment itself. Excluded from this section are the Restricted Articles which are covered in the IATA Regulations Relating to the Carriage of Restricted Articles by Air and the Official Air Transport Restricted Articles Tariff No. 6C, CAB No. 18.

THE FOLLOWING TYPES OF CARGO WILL NOT BE ACCEPTED:

LIVE ANIMALS
HUMAN REMAINS
PERISHABLES
OTHER UNUSUAL SHIPMENTS
except as indicated in the following tables.

LIVE ANIMALS

A-Accepted when suitably crated, cased, caged, etc., and necessary documents (such as Veterinarian's certificate) completed.
AC-Accepted only on all-cargo aircraft

When a number (or numbers) appears in a block, acceptance is limited by the appropriately numbered note.

INTERNATIONAL STATION DIRECTORY

This directory lists all cities outside of the U.S. and Canada receiving air cargo service via scheduled airlines.

The column headed Maximum Weight Per Piece shows the maximum weight per piece of cargo that each carrier can handle at each station WITHOUT ADVANCE ARRANGEMENT. This is not intended as a limitation on the size shipments which can be handled - provided no single item within the shipment exceeds the maximum specified.

The column headed Aircraft and Maximum Size indicates by number (see table following International Station Directory) the type of aircraft serving

each point. Maximum size refers to the maximum dimensions of a piece of freight which can move through an airplane's door and may be determined from the accompanying aircraft charts.

The column headed CC indicates by "A" where and by which carriers Charges Collect service is available.

The column headed COD shows by an "A" the availability of C.O.D. service.

An "R" in either column indicates acceptance subject to certain restrictions.

An asterisk (*) preceding any city indicates that customs facilities are not available at the airport of the city so marked.

U. S. INTERNATIONAL AIR PARCEL POST

Air parcel post service is in effect to the countries listed below. Air parcels are dispatched in regular domestic air mail channels from the post office of mailing to the appropriate United States international gateway exchange office for forwarding by international air mail service to the countries of destination.

Parcels should be sufficiently prepaid, but if insufficiently prepaid and the return address is at the office of mailing the parcels will be promptly returned to the sender for the necessary additional postage. When parcels returned for additional postage are again presented for mailing the postage stamps originally affixed will be accepted to the amount of their face value. Air parcels which reach the dispatching exchange office and are then observed to be insufficiently prepaid will be forwarded to destination by air, and the deficient postage collected from the sender in the same manner as prescribed for short-paid surface parcel post packages.

Air parcels are subject to the same general conditions as are applicable to international surface parcel post.

Postage rates are based on weight units of 4 ounces, and it will be noted that the rate for the first 4 ounce unit is higher than for the succeeding units.

The same postal forms—custom declaration (Form 2966) and dispatch note (Form 2972)—as are required for surface parcels must be prepared in connection with air parcels, and the numerals under these column headings below indicate the number of forms required per parcel. In addition, an air mail label, 19, must be pasted on the address side of the parcel. If a dispatch note is required, place a blue par avion label, 55, on that form. One parcel post sticker (Form 2922) must also be affixed to each parcel.

The weight of customs declarations and other postal forms will not be included with that of the parcel in determining the amount of postage required.

The limitations as to dimensions of parcels in general are: greatest length, 3½ feet—greatest length and girth combined, 6 feet. However, for some countries, parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

Air parcels may be registered or insured to countries where indicated below.
